

SafeCoat Fire Retardant Treatment

FR31, FR31S, FR41 FR StainGuard

Safecoat products are highly effective, environmentally friendly and economical fire retardant treatments. They can be used to fire retard fabrics, straw, cardboard paper and practically all water absorbent materials.

Apply by spraying , padding or immersion

Colorless, odorless

Does not substantially affect feel or appearance of fabric

Water soluble, can be washed out

Ready-to-use liquid form

Chemically neutral PH 7.0 to 8.0

FR31

Highly effective for most fabric, both natural and synthetic. Tested to meet CAN/CGSB 4.2 27.1MS on 100% cotton, 100% polyester and 65/35 cotton/polyester blend. Also effective on cardboard and paper.

FR31S

Specially formulated to treat straw, hay, cardboard and paper.

FR41

A high concentrate fire retardant for less absorbent cellulosic materials which are difficult to treat.

FR 31 StainGuard

Same fire retardant formulation as FR31 with the addition of a highly effective stain-guard which will protect against water and oil based stains.
