Fire Retardant Coatings (cont.)

Safecoat FR 41 Fire Retardant Fabric Treatment

Sizes 1 gallon jug, 5 gallon pail, 55 gallon drum

Highly effective fire retardant for substrates and fabrics that are tougher to treat, such as nylon and other less absorptive fibres.

Apply by spray, padding or immersion

Does not substantially alter the feel of the fabric

Odorless and colorless

Fabric must be somewhat absorptive in order for FR 41 to be effective

Safecoat FR 31S Fire Retardant for Straw and other cellulosic materials

Sizes 1 gallon jug, 5 gallon pail, 55 gallon drum

Specifically formulated to treat straw, hay, cardboard and paper ,

Apply by spray, padding or immersion

1 gallon treats four bales of straw (Surface area only: bales should remain intact)

Odorless and colorless

Safecoat FR 31 Stainguard

Sizes 1 gallon jug, 5 gallon pail, 55 gallon drum

Same highly effective fire retardant as FR 31 with the addition of a highly effective stain-guard which will protect against water and oil based stains

Apply by spray, padding or immersion

Does not substantially alter the feel of the fabric

Odorless and colorless

Reducers Safecoat 747 and Safecoat 725

Sizes 1 gallon jug, 5 gallon pail, 55 gallon drum

Safecoat 747 Reducer is a special blend of solvents for Safecoat 747 suitable for adjusting the viscosity and wetting out characteristics during application

Safecoat 725 Reducer for Safecoat 725 which will reduce dry spray or adjust wetting out characteristics during application

Qualified Licensed Applicator & Letter of Compliance Available
